

# Creature Blow Art

## **Blow Paint Art Supplies:**

- Cups of water
- Food Coloring
- Paintbrush
- Straw
- Thick White Paper
- Construction Paper
- Black Marker
- Glue Stick

**Put water in cups and mix food coloring in each cup.  
Use a paintbrush to add a small puddle of paint onto the paper.**

**Place the straw about an inch away from the puddle.  
Use the straw to blow the paint blobs around in all directions.  
Try blowing down directly onto the puddle, blowing from the left and blowing from the right.**

**See how many different shapes you can make with the water.  
Repeat each step with the different colors.  
Let the paint dry completely (ours took about 30 minutes;  
if you need these done quick, you can use a blowdryer as well).**

**Cut circles from the white paper and glue them  
onto the blow paint creatures. Use a black marker to draw  
the eyes onto the creatures.**

**With the black marker, draw lines coming out from the center  
of each creature. Paint small circles at the ends of these lines  
with a coordinating paint color.**

**Glue the white paper onto a piece of colored  
construction paper to finish it off.**
