

**Course: Computers-Reid**

**Instructor: Instructional Plan**

**Course Content Description Template**

Provide a brief overview of the course content, including key topics and themes covered throughout the course.

Students will advance their skills in reading and math. Reading lessons include phonics, spelling, fluency, comprehension, vocabulary and grammar. Math lessons are sorted by grade levels. They can include adding, subtracting, division, and so on.

**Major Assignments and Projects Template**

List the major assignments and projects for the course, including their purpose and any relevant deadlines or evaluation criteria.

The students will be taking a bench mark test in both math and reading to determine how much progress was made during the year.

**Required Textbooks and Instructional Materials Template**

List the textbooks and other instructional materials required for the course, including authors, publication dates, and any additional resources needed for successful completion.

The students use IXL for their math program, and Mindplay for their reading program.
