

Course: 7th Grade Science

Instructor: Victor Crume

Instructional Plan

Course Content Description Template

Provide a brief overview of the course content, including key topics and themes covered throughout the course.

This course will cover: Elements and Compounds, Solutions, Speed vs. Velocity, Energy Transfer and Patterns, and Components of our Solar System.
TEKS 7.6-7.9

Major Assignments and Projects Template

List the major assignments and projects for the course, including their purpose and any relevant deadlines or evaluation criteria.

Students will have two tests every 6 weeks. They will also perform multiple labs and projects relating to the content of Elements and Compounds, Solutions, Speed vs. Velocity, Energy Transfer and Patterns, and Components of our Solar System.

Required Textbooks and Instructional Materials Template

List the textbooks and other instructional materials required for the course, including authors, publication dates, and any additional resources needed for successful completion.

This class will utilize the Summit K12 online programming. We will also be using Edpuzzle, Wayground, and Farwell JH-approved websites for supplemental learning.
